

At the end of March 2019, the stock of licensed motor vehicles stood at 387,775, an increase of 3.4 per cent over the same quarter in 2018.

Motor Vehicles: Q1/2019

Administrative data obtained from Transport Malta shows that, at the end of March this year, the stock of licensed motor vehicles stood at 387,775 (Chart 1). Out of this total, 77.8 per cent were passenger cars, 13.6 per cent were commercial vehicles, 7.5 per cent were motorcycles/quadricycles and All-Terrain Vehicles (ATVs), while buses and minibuses amounted to less than one per cent (Table 1). During the quarter under review, the stock of licensed vehicles increased at a net average rate of 27 vehicles per day (Chart 2).

Newly licensed vehicles

Newly licensed vehicles put on the road during the period under review amounted to 6,526. The majority of the newly licensed vehicles, 4,932 or 75.6 per cent of the total, were passenger cars, followed by goods-carrying vehicles with 782 or 12.0 per cent. Newly licensed 'new' motor vehicles amounted to 2,669 or 40.9 per cent of the total, whereas newly licensed 'used' motor vehicles totalled 3,857 or 59.1 per cent (Tables 2-4). An average of 73 vehicles per day were newly licensed during the quarter under review (Chart 3).

Vehicles under restriction

During the first quarter of this year, 7,715 vehicles were taken off the roads due to a restriction. Out of these, 33.9 per cent were put for resale, 32.9 per cent were scrapped, while garaged vehicles amounted to 31.0 per cent of the total. Vehicles that had their restriction ending during the quarter under review totalled 3,622. The majority were recorded as being for resale (64.7 per cent) or garaged (34.2 per cent) (Tables 5-6).

Engine power type

As at the end of March this year, 232,600 vehicles or 60.0 per cent of the total were petrol-powered vehicles. Diesel-powered vehicles reached 150,986 or 38.9 per cent of the total. Electric and hybrid vehicles accounted for 0.7 per cent of the entire stock, with a total of 2,692 vehicles (Table 7) ■

Methodological Notes

1. This news release is based on data provided by Transport Malta.
2. Data in this news release is subject to regular revisions by the data provider. For this reason, the data shown are updated as per cut-off date of the respective quarter and are to be considered as provisional.
3. Data are being presented in consistency with international counterparts (Eurostat/ITF/UNECE) according to the 4th edition of the Illustrated Glossary for Transport Statistics <http://www.unece.org/fileadmin/DAM/trans/main/wp6/pdfdocs/glossen4.pdf>.
4. **Definitions:**
 - a. **Vehicle categories and classifications**
 - **Agricultural:** motor vehicle, normally a tractor, designed exclusively or primarily for agricultural purposes; licensed to use roads open to public traffic.
 - **Coach and private bus:** passenger road motor vehicle designed to carry more than 24 persons (including driver), and with a provision to carry seated and standing passengers.
 - **Minibus/mini-coach:** passenger road motor vehicle designed to carry 10-23 seated or standing persons (including the driver).
 - **Route bus:** bus licensed to operate on established bus routes.
 - **Motorcycle:** two-, three- or four-wheeled road motor vehicle not exceeding 400kg of unladen weight. All such vehicles with a cylinder capacity of 50cc or over are included, as are those under 50cc which do not meet the definition of moped.
 - **E-Bicycle:** cycle with supportive electrical power unit. Due to the negligible number of powered bicycles, such data is included with motorcycles.
 - **Moped:** two-, three- or four-wheeled road motor vehicle which is fitted with an engine having a cylinder capacity of less than 50cc and a maximum authorised design speed in accordance with national regulations. In this news release, mopeds are included together with motorcycles.
 - **Quad (Quadricycle)/ATV (All Terrain Vehicle):** four-wheeled road motor vehicle not exceeding 400kg of unladen weight. All such vehicles with a cylinder capacity of 50cc or over are included, as are those under 50cc which do not meet the definition of moped.
 - **Passenger road vehicle:** a road vehicle designed, exclusively or primarily, to carry one or more persons. This category includes motorcycles, mopeds, passenger cars, vans designed and used primarily for transport of passengers, taxis, hire cars, ambulances, buses, coaches, minibuses and motor homes.
 - **Passenger car:** road motor vehicle, other than a moped, motorcycle or Quad/ATV, intended for the carriage of passengers and designed to seat no more than 9 persons (including the driver). This category includes passenger cars, vans designed and used primarily for transport of passengers, taxis, hire cars, ambulances, motor homes (not caravans), hearses and microcars (needing no permit to be driven).
 - **Goods-carrying vehicle:** road vehicle designed, exclusively or primarily, to carry goods. This category includes: (a) light goods vehicles with a gross vehicle weight of not more than 3,500kg designed exclusively or primarily to carry goods, such as vans and pick-ups; (b) heavy goods road vehicles with a gross vehicle weight above 3,500kg designed to carry goods.
 - **Road tractor:** road motor vehicle designed, exclusively or primarily, to haul other road vehicles which are not power driven (mainly semi-trailers).
 - **Special purpose vehicle:** road motor vehicle for purposes other than the carriage of passengers or goods. This category includes: fire brigade vehicles; mobile cranes; self-propelled rollers; bulldozers with metallic wheels or track; vehicles for recording film, radio and TV broadcasting; mobile library vehicles; mobile kiosks; towing vehicles for vehicles in need of repair and other special purpose road motor vehicles.
 - **Garage hire:** chauffeur-driven car for hire.
 - **Self-drive car/motorcycle:** passenger road motor vehicle available for hire (without chauffeur).
 - **Taxi:** licensed passenger car for hire with driver without pre-determined routes. The method of hire is normally: (i) Flagging down the street; (ii) Picking up at a designated taxi rank; (iii) Telephoning for collection; (iv) Booking through mobile apps or internet.

- **Leased:** a contract under which the owner of a motor vehicle grants to another person the exclusive possession of the motor vehicle for an agreed period, in return for a consideration, and under such conditions that the possessor of the motor vehicle will be obliged to pay the full amount of the consideration, or a penalty, to the owner of the motor vehicle, should the contract be terminated before the expiration of the agreed period. A 'QZ' plate is assigned to all vehicles falling in this category.

- **Other:** this category includes any other use/ownership (mostly private), not mentioned above.

b. **Alternative vehicle motorisation types**

- **Electric/battery-operated:** electrically-operated vehicle, totally independent of a fuel-driven engine.

- **Hybrid:** is a vehicle that uses two or more distinct power sources to move the vehicle. This term most commonly refers to hybrid electric vehicles (HEVs), which combine an internal combustion engine and one or more electric motors.

- **Combined:** a combined engine vehicle is one that uses two or more distinct non-electric power sources. Combination types: Petrol/LPG, Diesel/LPG.

c. **Vehicle restrictions**

- **Restrictions:** is a condition imposed on a vehicle's licence. Restrictions can be either temporary such as garaged, seized, resale, etc., or permanent (i.e. vehicle is indefinitely removed from circulation on national territory), such as exported, scrapped or destroyed. In this news release, only data of the four main restrictions (resale, exported, scrapped, garaged) are reported.

- **Resale:** a vehicle which has been de-licensed and put up for resale. The vehicle cannot be used on the road until licensed again when sold.

- **Exported:** a vehicle licensed in Malta which has been exported.

- **Garaged:** a vehicle no longer licensed for use on the road. This category excludes vehicles which have been scrapped or exported. A vehicle may be garaged for a particular period, then re-licensed after this period.

- **Scrapped:** a vehicle which has been scrapped/destroyed and therefore, indefinitely removed from circulation.

- **Other:** a vehicle which has been de-licensed for other reasons not listed above such as stolen, seized, engine removed, arrears issues and other minor restrictions.

5. Newly licensed data (new and used) shows the number of vehicles licensed for the first time to be used on Maltese roads. These values approximately indicate also the local sales of vehicles during the period.

6. The stock change for each quarter is calculated as follows =

Stock recorded in previous quarter
+ newly licensed vehicles in quarter under review
- number of vehicles with restriction starting during quarter under review
+ number of vehicles with restriction ending during the quarter under review

The final number might differ slightly from the actual stock due to the cut-off dates of the different databases.

7. Net average daily increase of stock of licensed vehicles =

$$\frac{\text{stock recorded in quarter under review} - \text{stock recorded in previous quarter}}{\text{number of days in quarter under review}}$$

8. Average daily increase of newly licensed vehicles =

$$\frac{\text{newly licensed vehicles (new and used)}}{\text{number of days in quarter under review}}$$
