Regional Labour Supply by Place of Residence and Work: 2016-2018

The labour supply is composed of persons in employment and those registering for work. To examine regional labour supply in MALTA at NUTS 3 level, employment statistics are being presented under two different variants; by place of residence and place of work, respectively. Persons working outside their region of residence are referred to as commuter workers.

Total employed persons (full-time and part-time as a primary job) in Malta and Gozo and Comino regions (NUTS 3)

Employed persons in Malta region (by place of work), exceeded the total number of employed persons resident in Malta region (by place of residence). Methodological Notes:

1. All data in this News Release are in line with the European System of Accounts (ESA 2010) (ISBN 978-92-79-31242-7) and the manual on Regional Accounts Methods (ISBN 978-92-79-32357-7). The European System of National and Regional Accounts is an internationally compatible accounting framework for a systematic and detailed description of a total economy (whether this is a region, a country, or a group of countries), its components, and its relations with other total economies. Regional accounts are a regional specification of the corresponding accounts of the total economy.
2. The data provided in this release, including the relevant classifications, is based on administrative records held at Jobsplus and on the latest data published by the National Statistics Office i.e. News Release 072/2018 (issued on 9 May 2018) and News Release 110/2019 (issued on 12 July 2019). The information contained in this release may be subject to revision.
3. Full-time and part-time status is determined by the employer's declaration (or that made by a self-employed person) in the engagement form which is required to be sent to Jobsplus upon commencement of employment.
4. a. Employment by **place of work** takes into account those persons who effectively work in the regions of Malta and Gozo and Comino respectively, irrespective of their locality/region of residence.
b. Employment by **place of residence** is based on employee residence as declared by the employer upon engagement with Jobsplus.
5. Owing to a reclassification exercise carried out by Jobsplus, employers recruiting domestic workers for personal services (not as a commercial activity) have been transferred from NACE divisions 86 and 88 to NACE division 97. Within the latter division, a household employer is defined as a person who pays an individual to perform duties in or around his home. Household employees may include nannies, care workers and private nurses. This change came into effect from December 2017.
6. Registered Unemployed provides data on the number of persons actively seeking work through Jobsplus. The data includes Part I and Part II of the unemployment register:
 - a **Part I of the unemployment register** includes new job seekers who have left school, re-entrants into the labour market and individuals who have been made redundant by their former employers.
 - b **Part II of the unemployment register** includes workers who have been dismissed from work due to disciplinary action, left work out of their own free will, refused work or training opportunities or were struck off the register after an inspection by the Law Enforcement personnel.
7. Labour Supply comprises the full-time gainfully occupied population and the registered unemployed population.
8. **Statistical Regions and Districts of MALTA.**

The Nomenclature of Territorial Units for Statistics (NUTS) is a hierarchical classification which divides the economic territory of the European Union for the purpose of producing regional statistics that are comparable across the European Union (NUTS 1 to 3 levels). To meet the demand for statistics at a local level, Eurostat has created a system of Local Administrative Units (LAUs) that is compatible with NUTS.

| | |
|--------|--|
| NUTS 1 | MALTA |
| NUTS 2 | MALTA |
| NUTS 3 | Malta Region Gozo and Comino Region |

As indicated above NUTS 3 divides MALTA into two regions. In addition, LAU 1 divides MALTA into six districts and LAU 2 into 68 localities.
