## Methodological Notes

1. Data in this release are based on:
  - a. the Intrastat Supplementary Declaration that traders in merchandise goods must submit in respect of Arrivals (Imports) and Dispatches (Exports) of goods from and to the Member States of the European Union (EU), in compliance with Legal Notice 131 of 2004; and
  - b. the Customs Declarations for imports from and exports to countries that are not Member States of the EU.
2. The Intrastat Supplementary Declaration for the collection of data on trade in goods between the Member States of the EU replaced the Customs Declaration as from 1 May 2004. The requirements of the Supplementary Declaration, which at EU level were introduced as from 1 January 1993, are similar in all the Member States of the EU.
3. As from May 2004, with the introduction of the Intrastat Supplementary Declaration as the source document for trade statistics, it was no longer possible to disaggregate total exports into domestic exports and re-exports.
4. The 'Balance of Trade' is the difference between a country's exports and imports. A country has a trade deficit if it imports more than it exports; the opposite scenario is a trade surplus.
5. This news release is based on data available as on the cut-off date printed on the front page of this release. These are provisional figures based on information provided by traders on a monthly basis. Regular revisions to monthly and annual trade data may be carried out for up to two (2) years after the reference period.
6. National concepts differ from the harmonised methodology used by Eurostat, leading to differences between figures in this release and those published by Eurostat. Malta uses the General Trade system for dissemination purposes, in line with UN recommendations. On the other hand, monthly data sent to Eurostat for both Intra-EU and Extra-EU are compiled according to the Special Trade methodology. A more detailed explanation of these two concepts can be found at <http://nso.gov.mt/metadata/reports.aspx?id=7>.
7. Individual countries' data not appearing in this release are available from the NSO upon request and in the excel version.
