

Total inbound visitors for November were estimated at 167,101, an increase of 17.1 per cent when compared to the corresponding month in 2016.

Inbound Tourism: November 2017

A total of 139,230 inbound tourist trips were carried out for holiday purposes, while a further 15,297 were undertaken for business purposes. Inbound tourists from EU Member States went up by 14.7 per cent to 140,825 when compared to the corresponding month in 2016. Most inbound tourists were aged between 45 and 64 (38.3 per cent), followed by those within the 25-44 age bracket (36.5 per cent). During November 2017, first-time tourists increased by 27.4 per cent, while repeat tourists declined by 7.2 per cent when compared to the same month in 2016 (Table 1).

Total nights spent went up by 7.1 per cent when compared to November 2016, surpassing 1.0 million nights. The largest share of guest nights (66.9 per cent) was spent in collective accommodation establishments. Tourist nights in private accommodation decreased by 2.0 per cent when compared to November 2016 (Table 3).

Total tourist expenditure was estimated at €120.3 million, an increase of 18.3 per cent over the corresponding month in 2016 (Table 4).

January-November 2017

Inbound tourist trips from January to November 2017 reached 2,164,616, an increase of 15.7 per cent over the same period in 2016 (Table 6). Total nights spent by inbound tourists went up by 10.0 per cent, surpassing 15.7 million nights (Table 8).

Total tourism expenditure reached almost €1.9 billion, 13.5 per cent higher than that recorded for 2016 (Table 9). Total expenditure per capita stood at €864, a decrease of 1.8 per cent when compared to 2016 (Table 11) ■

Inbound tourism: year-on-year percentage changes (excluding overnight cruise passengers)

Non-EU	8,624	11,434	19,872

Methodological Notes

1. This release focuses on Inbound Tourism, which comprises the activities of non-resident visitors travelling to Malta (i.e. outside their usual environment), and staying for not more than 12 consecutive months for leisure, business or other (corresponding) purposes.
2. Inbound tourism trips are collected from an ongoing frontier national survey known as Tourstat. Tourist air departures are collected through a continuous survey carried out at the departure lounge of the Malta International Airport. A two-stage sampling design is used to collect air passengers. In the first stage, alternate days and nights are selected. In the second stage, within each shift, a sample of passengers is selected systematically. Every crossing passenger is counted and respondents are selected using a pre-defined interval of 1:20 for air.
3. Tourstat measures the number of tourist trips carried out during a particular reference month. These differ from the number of tourists in that the same person can make more than one trip during the same period.
4. Tourist sea departures are collected through a regular survey, conducted during three separate months every year at the Valletta Cruise Port. A quota sample is used to conduct sea passenger departures in which survey interviewers are guided to select people according to fixed quotas. Survey data is supplemented by administrative data provided by ferry operators.
5. Under-represented figures are indicated where applicable for each table and should be treated with caution. Users should also exercise caution when analysing figures that involve estimates relating to less than 1,500 tourists. Such estimates may be subject to variations attributable to low frequency in the sample (sampling errors). Other limitations may involve non-sampling errors, namely those linked to respondents' willingness to provide proper information and those related to language barriers.
6. Percentage changes for tourists based on counts of less than 1,500 are not presented due to sampling errors, and are represented in this news release by means of the dash symbol (-).
7. The expenditure data in this release should not be equated to national tourism earnings.
8. The monthly passenger departures data published by the Malta International Airport cannot be equated to the number of inbound tourists because the former is inclusive of departing Maltese and transit passengers.
9. Data on cruise passengers who spent at least one night berthed on board their cruiseship is compiled on the basis of administrative records held by Transport Malta.
10. Arrivals and nights spent in time-share accommodation are being categorised in 'Private Accommodation' instead of 'Collective Accommodation' as per Eurostat recommendation. In this regard, there may be minor differences in these statistics and statistics published in tourism supply due to the fact that hotels report time-share accommodation under 'Collective Accommodation'.
11. Prior to comparing and interpreting differences between demand-side (based on Tourstat) and supply-side (based on Accomstat) tourism statistics, users are strongly advised to consult concept 8.3 of the NSO's metadata file (<http://nso.gov.mt/metadata/reports.aspx?id=37>).
12. **Definitions:**
 - **Usual Environment:** The geographical area, though not necessarily a contiguous one, within which an individual conducts his regular life routines and shall be determined on the basis of the following criteria: the crossing of administrative borders or the distance from the place of usual residence, the duration of visit, the frequency of visit, the purpose of visit.
 - **Traveller:** A person who moves between different geographic locations, for any purpose and any duration.
 - **Visitor:** The three fundamental criteria used to distinguish visitors from travellers are:
 - a. **The trip should be to a place other than that of the usual environment**, which would exclude short-distance local transport and commuting, i.e. more or less regular trips between the place of work/study and the place of residence;
 - b. **The stay in the place visited should not last more than twelve consecutive months**, beyond which the visitor would become a resident of that place (from the statistical standpoint);
 - c. **The main purpose of the visit should be other than the exercise of an activity remunerated from within the place visited**, which would exclude migratory movements for work purposes.
 - **Tourist:** A visitor who stays at least one night in collective or private accommodation in the place/country visited.
 - **Inbound tourism:** comprises the activities of non-resident visitors travelling to MALTA (i.e. outside their usual environment), and staying for not more than 12 consecutive months for personal, business or other purposes.
 - **Total nights spent:** nights which a guest actually spends or is registered to spend in a collective accommodation establishment or in a private accommodation.
 - **Average length of stay:** the number of nights spent divided by the number of trips during a specified reference period.
 - **Collective accommodation:** comprises hotels, guesthouses, hostels, tourist villages, holiday complex, Bed & Breakfast and campsites.
 - **Private accommodation:** comprises holiday furnished premises (farmhouses, flats and villas), rented accommodation (host families, marinas, paid-convents, rented yachts, student dormitories), own private residence (owned dwellings, owned caravans and yachts), staying with friends or relatives (even if charged - includes also friends' private apartments) and other private accommodation (oil rig, free-convents, timeshare, dockyards (Palumbo), ship (used for work)).

- **Total expenditure:** comprises the total consumption expenditure made by a visitor or on behalf of a visitor for and during the trip and stay at destination. It is broken down by the following expenditure items: Transport, Accommodation and Other (including shopping, food and drinks and excursions during a tourism trip).
