## TECHNICAL EDUCATION.

Drawing forms part of the syllabus of both the Central and the Elementary Schools of Malta and Gozo, and with very few exceptions, in all the boys' elementary schools in Malta, with the standard above the third. In Gozo, it is taught at Victoria, Kirrem, and Xewkija. Handwork is taught in all the Girls' Schools and in the Boys' Schools.

There is also a Night School of Drawing at Notabile and a Modelling class at Tarxien.

In April, 1932, a Technical School was started at Imriehel; another is being built at Corradino. Woodwork, Metalwork and Tailoring are taught therein, besides Science, Drawing and the usual literary subjects. Handicraft is being extended throughout the schools.

There is also a Housecraft School for girls at Floriana, besides the Hand Work School at the Auberge de France, where pupils attend in turns. To these schools are attached classes in Needlework and Cookery. Marine and Electrical Engineering Classes are held at the Engineering Training Workshop. Apprentices attend at the Engineering Training workshop at Hamrun for workshop training and experience and some also at H.M. Dockyard. Besides there is diving instruction (open also to the public) beginning in the ten foot pond at the Engineering Training Workshop and then in the Harbour down to 13 fathoms. Carpentry, shoe-making, stone-cutting and trimming, motor mechanics and driving, cooking, white and colour washing, painting and stencilling, cement paving and hair-cutting are taught at the Salvatore Reformatory. There are also private Trade Schools in Malta, viz: the Salesian Industrial School, the Istituto Vincenzo Bugeja, the Casa di S. Giuseppe or Istituto Bonnici and the Society of Arts, Manufactures and Commerce, the first three of which are subsidized by the Government.

There is also a School of Art which comprises free courses in higher art education. It embraces painting, drawing, modelling, history of art and general art knowledge, engraving, etching and silversmithing.
