<i>Questions.</i>	<i>Answers.</i>
	CORRADINO PRISON:
I. If the prison is on a separate system, is the separation complete? And, if not, what is the separation enforced by day and night respectively?	The Prison is on the mixed cellular system as regards the Criminal Ward. The separation is complete as regards prisoners undergoing hard labour of the first class for the first 14 days. After this period prisoners are employed on hard labour of the first class in association as far as practicable.
	VALLETTA LOCK-UP:
	It is on a separate system and no effectual separation can, as a rule, be enforced either by night or by day, owing to the fact that the premises are defective and ill suited for the object for which they are intended, viz:
	1. The temporary detention of persons sentenced during the day, until their removal to the Corradino Prison in the afternoon.
	2. The temporary detention of persons apprehended in the evening or by night until the next conveyance to the Corradino Prison.
	3. The temporary detention of prisoners escorted from the Corradino Prison early in the morning to undergo trial before the Magistrate, or before His Majesty's Criminal Court to communicate with their legal adviser when their defence is taken up by the Advocate for the Poor.
	4. The detention of Prisoners sentenced to not more than three days.
	GOZO PRISON:
	It is not on a separate system, but the premises admit, generally, of the separation of persons sentenced to imprisonment from others who are under examination or remitted for trial.
	CORRADINO PRISON:
II. If not on the separate system, what provision is there for the supervision of the prisoners while in association?	The Prisoners, while in association, are supervised by warders in the male division, and by Sisters of Charity and wardresses in the female ward.
	VALLETTA LOCK-UP:
	They are occasionally supervised, day and night, by the Keeper and by the Inspector and Sergeants of Police on duty at the Main Station.
	GOZO PRISON:
	They are supervised by the Warders and occasionally by the Principal Warder of the Prison.
	CORRADINO PRISON:
III. How many cells are there; and how many associated wards?	There are 264 separate cells and 8 wards.
	VALLETTA LOCK-UP:
	There are 8 cells now in use; all the others are damp dark, and insanitary.
	GOZO PRISON:
	There are 1 cell and 4 wards, 3 of which wards have airing yards.
