EXCHANGES, MONEYS, ACCOUNTS,  
WEIGHTS, AND MEASURES.

1905-1906.

## COURSE OF EXCHANGE.

FOR THE YEAR 1905-6.

*Exchanges*—Rates of exchange for cheques and bills on London in the course of the year remained nearly invariable. The exchanges on Italy ranged between 25 and 25½ the average rate for the year being 25.

Since the abolition of the ad valorem duty on 3 d/s bills, by the English Stamp Act, there is no difference in the exchange between cheques and 3 d/s bills.

Place	Maximum	Minimum
On London—Bankers draft per £100—on demand... ..	3/8 <sup>o</sup> / <sub>2</sub> prem.	1/8 <sup>o</sup> / <sub>2</sub> prem.

## COINS.

Pursuant to an Order of Her Majesty in Council of the 24th September 1886, British Coins are the only legal tender in these Islands and the limit up to which Silver and Bronze Coins are received is raised to five pounds and one shilling respectively.

Twenty franc piéces and five franc piéces both French and Italian, are, now, merely kept in deposit as articles of merchandize for exportation to the neighbouring centres of Trade such as Tunis, Tripoli, Bengasi, Syria, and Sicily, when a demand arises for them for the purchase of produce, or for the payment of bills payable in Francs or Lire. The deposit of such Coins greatly diminished, as in Tripoli and Bengasi Sovereigns are in demand when Napoleons are not obtainable at 15s. 11½d.

Further measures have been undertaken by this Government for reducing the surplus of Silver coin defaced in circulation.

The currency consists of British gold and silver: — gold coin below legal tender weight is rejected. The system of making payments by cheques has been adopted by nearly the whole Commercial community.

In February 1904 the Government made arrangements for the deposit of public moneys in the Anglo-Egyptian Bank Ltd., Malta Branch, the bank paying interest at the following rates:

3 <sup>3</sup> / <sub>16</sub> on Fixed Deposits for one year
2 <sup>7</sup> / <sub>16</sub> .. Fixed Deposits for six months
2 <sup>1</sup> / <sub>16</sub> .. Current a/c on condition that this a/c is not drawn below the sum of £10,000 and that no interest is paid on any sum in excess of £25,000.

The Government have further agreed with the above Bank to purchase from them any drafts on London which may be required by Government at a uniform rate of 1<sup>1</sup>/<sub>16</sub> premium.

In June 1892 His Excellency the Governor, to accord facilities to the Commercial Community, authorized Heads of Departments to receive payments by certified cheques on the Anglo-Maltese Bank and on the Banco di Malta, and in 1896 also on the Anglo-Egyptian Bank.

## CIRCULATION.

The British gold coin held in Malta fluctuates according to the sums imported and exported and the requirements of the Fleet. It is at present roughly estimated at

Sovereigns	...	...	...	...	...	...	£ 450,000
Half Sovereigns	...	...	...	...	...	...	40,000
					Total	...	£ 490,000
British silver and bronze coin at	...	...	...	...	...	...	50,000
					Specie	...	540,000

The amount of note circulation, which is restricted to the notes of the Anglo-Maltese Bank and the Banco di Malta, cannot be ascertained, in as much as the Banks do not publish their accounts and they are not subject to any statutory laws.

## ACCOUNTS KEPT.

By Government in Sterling

By Commerce likewise in sterling: a few merchants, however, of the Marina and Casals (villages) still continue to keep their accounts according to the old style in Scudi, Tari and Grains:

One Maltese Scudo is generally reckoned at  $1/8$ .

A Tari " "  $-/12\frac{1}{2}$ .

A Grain " "  $-/10\frac{1}{4}$ .

Twelve Maltese Scudi are " " 20/- or £1 Sterling.

The Maltese coins have been demonetized; Coins to the nominal value of about £12,000 were withdrawn from circulation in November 1886.

Rate of exchange of British and Maltese Coins, in terms of Proclamation No. 1 of 10th March 1851.

	Scudi	Tari	Grains
Sovereign... ..	= 12	6	—
Half Sovereign ... ..	= 6	3	—
