Questions.

Answers.

I. If the Prison is on a separate system, is the separation complete? And if not, what is the separation enforced by day and night respectively?

This prison is on the mixed cellular system, as regards the criminal wards. The separation is complete as regards two of the five Sections under which the prisoners are classed, viz: A and B. In sections C and D association is allowed for three hours daily in the yards, but with *strict silence*, separation being enforced during the remaining hours. In Section E conversation is allowed with another prisoner designated by the Superintendent. By night the separation is complete for all prisoners.

II. If not on the separate system, what provision is there for the supervision of the prisoners while in association?

The prisoners, while in association, are supervised by Warders in the Male Divisions, and by Sisters of Charity in the Female Ward.

III. How many cells are there and how many wards?

There are 258 separate cells, and seven wards †

IV. Taking the average number of prisoners in gaol, how many cubic feet of space are there for each prisoner during the hours of sleep?

In the Criminal wards there are 1,120 cubic feet of space for each prisoner in 72 cells, and 1,260 cubic feet in the other 186 cells.

V. How are the prisoners classified?

In five Sections from A to E inclusive, six months good conduct being required before passing from one system to another of less severity.

* On the 15th March 1895, the Female Prisoners were removed from the Poor House to the Corradino Prison, where a Ward had been specially built for them.

† A separate Ward containing four large cells was built for Lepers in 1903.

Valletta Lock-up* (*In the Palace of the Courts of Justice*).*Questions.**Answers.*

- I. If the Prison is on a separate system, is the separation complete? And if not, what is the separation enforced by day and night respectively?
- It is not on a separate system, and no effectual separation can, as a rule, be enforced either by night or by day in consequence of the premises being so defective and ill suited for the object for which they are intended, viz :
1. The temporary detention of prisoners, sentenced during the day, until their removal to the Corradino Prison in the afternoon.
 2. The temporary detention of persons apprehended in the evening or by night until the next conveyance to the Corradino Prison.
 3. The temporary detention of prisoners escorted from the Corradino Prison early in the morning to undergo trial before the Magistrates, or before H. M's Criminal Court.
- II. If not on the separate system, what provision is there for the supervision of the prisoners while in association?
- They are occasionally supervised, day and night by the Keeper of the Prison and by the Inspector and Sergeants of Police on duty at the Main Station.
- III. How many cells are there and how many wards?
- There are 6 cells now in use, all the others are damp, dark and insanitary.
- IV. Taking the average number of prisoners in gaol, how many cubic feet of space are there for each prisoner during the hours of sleep?
- See Answer No. I.*
- V. How are the prisoners classified?
- A classification is not practicable.

* The use of the Valletta Prison has been discontinued since February 1899.

*Questions.**Answers.*

- I. If the Prison is on a separate system, is the separation complete? And if not, what is the separation enforced by day and night respectively?
- It is not on a separate system, but the premises admit, generally, of the separation of persons sentenced to imprisonment from others who are under examination or remitted for trial.
- II. If not on the separate system, what provision is there for the supervision of the prisoners while in association?
- They are occasionally supervised by the Keeper of the Prison, or by the Warder.
- III. How many cells are there and how many wards?
- There are four cells and three wards, two of which wards with airing yards attached.
- IV. Taking the average number of prisoners in gaol, how many cubic feet of space are there for each prisoner during the hours of sleep?
- Both the cells and the yards being very spacious and considering the limited number of persons detained in the same, no possible doubt can be entertained of the prisoners being too closely confined.
- V. How are the prisoners classified?
- See Answer to Question No. I.
