COINS.

Pursuant to an Order of Her Majesty in Council of the 24th September 1886, British Coins are the only legal tender in these Islands and the limit up to which Silver and Bronze Coins are received is raised to five pounds and one shilling respectively.

Twenty franc pieces and five franc pieces, both French and Italian, are now merely kept in deposit as articles of merchandize for exportation to the neighbouring centre of Trade such as Tunis, Tripoli, Bengasi, Syria and Sicily, when a demand arises for them for the purchase of produce, or for the payment of bills payable in Francs or Lire. The deposit of such Coins greatly diminished, as in Tripoli and Bengasi Sovereigns are in demand when Napoleons are not obtainable at 15*s.* 11½*d.*

The currency consists of British gold and silver:—gold coin below legal tender weight is rejected. The system of making payments by cheques has been adopted by the whole Commercial community.

In February 1904 the Government made arrangements for the deposit of public moneys in the Anglo-Egyptian Bank, Ltd., Malta Branch.

CIRCULATION.

The British gold coin held in Malta fluctuates according to the sums imported and exported and the requirements of the Fleet. It is at present roughly estimated at

Sovereigns	£ 450,000
Half-Sovereigns	15,000
			Total	£ 465,000
British silver and bronze coin		25,000
		Specie	£ 490,000

The amount of note circulation, which is restricted to the notes of the Anglo-Maltese Bank and the Banco di Malta, cannot be ascertained, inasmuch as these Banks do not publish their accounts and they are not subject to any statutory control.

ACCOUNTS KEPT.

By Government in Sterling.

By Commerce likewise in Sterling. A few merchants, however, of the Marina and Casals (villages) still continue to keep their accounts according to the old style in Scudi, Tari and Grains:

One Maltese Scudo is generally reckoned at $1/8$.

A Tari " " $-1\frac{2}{3}$.

A Grain " " $-0\frac{1}{12}$.

Twelve Maltese Scudi are " $20/-$ or £1 Sterling.

The Maltese coins have been demonetized: Coins to the nominal value of about £12,000 were withdrawn from circulation in November 1886.

Rate of exchange of British and Maltese Coins, in terms of Proclamation No. 1 of 10th March 1851.
