Questions.

Answers.

I. If the prison is on a separate system, is the separation complete? And, if not, what is the separation enforced by day and night respectively?

CORRADINO PRISON:

The Prison is on the mixed cellular system as regards the Criminal Ward. The separation is complete as regards prisoners undergoing hard labour of the first class for the first 28 days. After this period prisoners are employed on hard labour of the first class in association as far as practicable.

VALLETTA LOCK-UP:

It is on a separate system and no effectual separation can, as a rule, be enforced either by night or by day, owing to the fact that the premises are defective and ill suited for the object for which they are intended, viz:

1. The temporary detention of persons sentenced during the day, until their removal to the Corradino Prison in the afternoon.
2. The temporary detention of persons apprehended in the evening or by night until the next conveyance to the Corradino Prison.
3. The temporary detention of prisoners escorted from the Corradino Prison early in the morning to undergo trial before the Magistrate, or before His Majesty's Criminal Court to communicate with their legal adviser when their defence is taken up by the Advocate for the Poor.
4. The detention of Prisoners sentenced to not more than three days.

GOZO PRISON:

It is not on a separate system, but the premises admit, generally, of the separation of persons sentenced to imprisonment from others who are under examination or remitted for trial.

CORRADINO PRISON:

The Prisoners, while in association, are supervised by warders in the male division, and by Sisters of Charity in the female ward.

VALLETTA LOCK-UP:

They are occasionally supervised, day and night, by the Keeper of the Prison and by the Inspector and Sergeants of Police on duty at the Main Station.

GOZO PRISON:

They are occasionally supervised by the Keeper of the Prison and Warder.

CORRADINO PRISON:

There are 264 separate cells and 8 wards.

VALLETTA LOCK-UP:

There are 8 cells now in use; all the others are damp, dark, and insanitary.

GOZO PRISON:

There are 4 cells and 3 wards, 2 of which wards have airing yards.

II. If not on the separate system, what provision is there for the supervision of the prisoners while in association?

III. How many cells are there; and how many associated wards?

RETURNS OF GAOLS, &c.—(continued).

<i>Questions.</i>	<i>Answers.</i>
IV. Taking the <i>average</i> number of prisoners in gaol, how many cubic feet of space are there for each prisoner during the hours of sleep?	CORRADINO PRISON: In the Criminal wards there are 1,120 cubic feet of space for each prisoner in 78 cells and 1,260 cubic feet in 186 cells.
And what superficial area?	The superficial area of each cell is 103·3 sq. ft.
	VALLETTA LOCK-UP: See Answer to Question No. I.
	GOZO PRISON: The cells and yards being very spacious, and the number of persons detained in the same limited, no possible doubt can be entertained of the prisoners being too closely confined.
V. How are the prisoners classified?	CORRADINO PRISON: Long sentence prisoners are subdivided into three grades, viz:—lower, middle, and upper—six months good conduct being required before passing to the middle grade, and three months to the upper grade.
	VALLETTA LOCK-UP: A classification is not practicable.
	GOZO PRISON: See Answer to Question No. I.
VI. Is penal labour—that is, labour by treadmill, crank, or shot drill—in force?	FOR ALL PRISONS: No penal labour is in force.
VII. If so, during what periods of imprisonments, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced? In stating hours of treadwheel labour, give, first, the total time on and off at the wheel, &c.; secondly, the length of spells and intervals of rest.	FOR ALL PRISONS: See Answer to Question No. VI.
VIII. What kind of labour, other than penal labour, is in use?	CORRADINO PRISON: Building, stone-cutting, carpentering, glazing, mining, painting, staining, whitewashing, tailoring, shoe-making, mat and broom making, gardening, field labour, washing, sewing, knitting, patching, book-binding, oakum picking, baking, &c.
	VALLETTA LOCK-UP: See Answer to Question No. VI.—Oakum picking, sweeping and washing the Police dormitory, Valletta Lock-up cells and occasionally Police Offices.
	GOZO PRISON: Sweeping and cleansing the prison and conveying water to the same.

RETURN OF GAOLS, &c.—(continued).

Questions.

IX. If the prisoners are employed beyond the walls of the gaol, state—

1. On what kind of work they are so employed.
2. How are they supervised?
3. How many escapes of prisoners, while being employed beyond the gaol, have taken place during each of the last three years.
4. How the profits of their labour are accounted for.

Answers.
