TECHNICAL EDUCATION.

Drawing forms part of the syllabus of both the Central and the Elementary Schools, and it is taught in all the Central Schools of Malta and Gozo, and, with very few exceptions, in all the boys' elementary schools in Malta, with a standard above the third. In Gozo, it is taught at Victoria, Kercem, and Xenuchia, where the girls are also taught Drawing.

There is also a Night School of Drawing at Notabile and a Modelling class at Tarscen.

In April, 1932, a Technical School was started at Imriehel. Woodwork and Metalwork are taught therein, besides Science, Drawing and the usual literary subjects. A course in agricultural industries has been planned.

There is also a Housecraft School for girls at Floriana, where pupils attend in turns. To this school are attached classes in Needlework and Cookery. Marine and Electrical Engineering Classes are held in the Lyceum with a workshop for practical training at the Engineering Training workshop at Hamrun. The attendance in 1931-32 was 48 students. The cost was £283, 8, 3. Students attend H.M. Dockyard for practical instruction. Carpentry, shoemaking, stone-cutting and trimming, motor mechanics and driving, cooking, white and colour washing, painting and stencilling, cement paving and hair-cutting are taught at the Salvatore Reformatory. Technical Education cost the Government £3,264 in 1931-32. There are other private technical institutes, viz: the Salesian Industrial School, the Istituto Vincenzo Bugeja, the Casa di S. Giuseppe or Istituto Bonnici and the Istituto d'Arti e Mestieri, the first three of which are subsidized by the Government.

There is also a School of Art which comprises free courses in higher art education. It embraces painting, drawing, modelling, history of art and general art knowledge, engraving and silversmithing.

There is also a Labour Training Centre at "Hammieri" where prospective emigrants and others are given instruction in colloquial "languages" and are trained in the rudiments of carpentry in all its branches, the use of farm implements, including use of the mechanical tractor, land clearing, rock treating, use of pick and shovel and general labourer's work, and other matters as a preparation for life in the country to which the emigrants intend to proceed or for local requirements. The cost of the running of the Labour Training Centre amounted to £1,051, 1, 8.
