## Regional Statistics

### First Regional Dataset

The National Statistics Office is releasing a first set of regional information with respect to the two statistical regions of the Maltese Islands – Island of Malta and Gozo. The statistical data are spread over twelve themes:

- Population
- Education
- Culture
- Employment
- Household characteristics
- Land use
- Tourism
- Transport
- The economy
- Energy
- Water
- Waste generation

**Theme:**  
**General Statistics**

A group of salient indicators across all indicated themes concludes the varied dataset. While an effort has been made to present the most timely information possible on a regional dimension in the main dataset, the indicators have been updated to 2003 and 2004 as appropriate.

These regional data are available on the NSO website at:

**[www.nso.gov.mt/regionalstatistics/regionalstatistics.htm](http://www.nso.gov.mt/regionalstatistics/regionalstatistics.htm)**

The compilers plan to take the best advantage of the electronic format by instituting updates as the relevant information becomes available.

Queries may be addressed either by phone or e-mail to the contacts indicated in this announcement.
