Tourism

Departing tourists: August 2006

Inbound tourists declined by 7.9 per cent in August 2006 compared to August 2005, leading to a drop of 3.7 per cent for the first eight months of the year. In the latter period, tourist expenditure showed no significant change.

August 2006

Departures of inbound tourists in August 2006 are estimated at 164,302, implying a drop of 7.9 per cent compared to the same month of last year. This was underpinned by fewer tourists mainly from the United Kingdom and Germany contrasted by increases from Italy and Russia. The decrease in tourists during the month reflected primarily a drop in holiday makers.

January-August 2006

Departures of inbound tourists during the first eight months of 2006 are estimated at 767,836, a drop of 3.7 per cent over the comparable period of last year. In line with developments during the month of August, this decrease mainly reflected fewer tourists from the United Kingdom and Germany while there was a significant decline in tourists from France as well. Tourists from Italy, Russia and Belgium are estimated to have increased during the period.

The ongoing frontier survey of tourists departing by air indicates a 2.6 per cent decrease in total nights spent during the first eight months of 2006. Total tourist expenditure during the period under review is estimated at Lm292.9 million, an increase of 0.2 per cent over the same period last year ■

Methodological Notes

1. Tourist air departures are collected through a continuous survey carried out at the departure lounge of Malta International Airport. A two-stage sample design is used for this survey. At the first stage alternate days are selected. Then within each shift a sample of passengers is selected systematically. Personal interviews are carried out. Monthly response rates of around 90 per cent are achieved.
2. Tourist sea departures are collected through a regular survey that is carried out at the seaport. Ferry sailings on every alternate day are selected. Departing passengers are interviewed personally. On average a response rate of 93 per cent is recorded for this survey.
3. The variables collected in these surveys include the following:

Nationality	Number of nights stayed
Country of residence	Locality in Malta stayed longest
Flight/Sailing	Organisation of trip
Final destination	Form of transport used
Purpose of visit	Expenditure (package/non-package/other)
Frequency of visit	Age
Gender	
4. The expenditure data contained in this release should not be equated to national tourism earnings. Such expenditure includes elements that are earned by enterprises outside the Maltese economic territory.
5. The surveys carried out at the airport and the seaport are grossed up using the monthly passenger departures data in respect of each port after removing the number of transit passengers from the data sets. The monthly passenger departures data published by the Malta International Airport cannot be equated to tourism statistics because the former is inclusive of departing Maltese and transit passengers. As a result, the monthly tourism statistics published by the NSO are always lower than the combined passenger departures data available from the airport and seaport.
6. Definitions

Usual Environment consists of the direct vicinity of his/her home and place of work and other places frequently visited

Visitors comprise tourists and same-day visitors. Visitors are distinguished from other travelers according to the following criteria:

- The trip should be to a place other than that of the usual environment.
- The stay in the place visited should not last more than 12 consecutive months.
- The main purpose of visit should be other than the exercise of an activity remunerated from within the place visited.

International tourist satisfies the criteria mentioned earlier regarding visitors. Additionally, international tourists must stay at least one night in a collective or private accommodation in the country visited.

International same-day visitor is an international visitor who does not spend at least one night in collective or private accommodation.
