Tourism

Outbound Tourism: February 2006

February 2006

Maltese passengers during the month under review reached a total of 12,935. Of these, 12,762 departed by air; almost unchanged when compared to the same month last year. The overseas stay of the majority of Maltese air passengers – around 98 per cent – did not exceed six months.

Chart 1. Maltese air departures:
February 2002-06

January-February 2006

During the January-February 2006 period, the number of Maltese passengers departing by air and sea amounted to 25,097, a decrease of 7.6 per cent over the same period a year ago. Of these, around 97 per cent spent less than 6 months away from Malta.

In the period under review, the most frequent destination was the United Kingdom accounting for 31.6 per cent of the total number of Maltese travelling abroad by air and sea. This was followed by other main destinations - Italy, Belgium and Germany. See Chart 4.

In the first two months of 2006, male outbound passengers significantly exceeded female ones, the former accounting for 67.4 per cent of the total. See Table 2 and Chart 6.

Chart 2. Maltese air departures:
January - February 2002-06

The greatest proportion of outbound passengers - 45.5 per cent - were aged 25-44 years, followed by passengers aged 45-64 and 15-24 years, at 43.9 and 6.1 per cent respectively. For further analysis refer to Charts 7 and 8 ■

Chart 7. Outbound passengers - by age group:
January-February 2006

Chart 8. Outbound passengers - by age group:
January - February 2005

Methodological Notes

1. Maltese air departures are collected through a continuous survey carried out at the departure lounge of Malta International Airport. A two-stage sample design is used for this survey. At the first stage alternate days are selected. Then within each shift a sample of passengers is selected systematically. Personal interviews are carried out. Monthly response rates of around 90 per cent are achieved.
2. Maltese sea departures are collected through a regular survey that is carried out at the seaport. Ferry sailings on every alternate day are selected. Departing passengers are interviewed personally. On average a response rate of 93 per cent is recorded for this survey.
3. The survey which is carried out at the seaport commenced in April 2004. No data for Maltese sea departures is available for the period January - March 2004.
4. The variables with respect to Maltese departures that are collected in this survey include the following:
Age
Sex
Destination
5. The surveys carried out at the airport and the seaport are grossed up using the monthly passenger departures data in respect of each port after removing the number of transit passengers from the data sets.
6. Definitions

Outbound tourism comprises the activities of residents of a given country traveling to and staying in places outside that country and outside their usual environment.

Usual environment consists of the direct vicinity of his/her home and place of work and other places frequently visited.
7. The data in this release are not normally subject revision.
8. Further methodological notes are available at www.nso.gov.mt/publications/Tourstat/Tourstat2003.pdf
