Business

Short-term Business Statistics: November 2006

All indicators registered increases in November 2006 compared to the same month of 2005.

This News Release updates monthly indices of activity for the Main Industrial Groupings for November 2006. The base year used for these indices is the average for the whole 2000 (2000=100). These series are not seasonally adjusted.

Industrial turnover increased by 9 per cent in November 2006 over the same month of 2005. This was mainly driven by the Consumer Durables Goods and the Capital Goods industrial groupings.

Employment in industry is estimated to have increased by 10.8 per cent in November 2006 on an annual basis. This reflected increases in the Capital Goods, Consumer Non-Durables and Immediate Goods groupings, contrasted by lower employment in other groupings.

Gross wages and salaries in industry increased by 3.3 per cent from November 2005 to November 2006, reflecting increases in all major industrial groupings except in the Consumer Durables and Consumer Non-durables.

Hours worked increased by 4.5 per cent in November 2006 on an annual basis, underpinned by increases in the Capital Goods and Intermediate Goods groupings. The Consumer Non-durables, Energy and Consumer Durables groupings registered decreases■

Methodological Notes

The data presented cover quarrying, manufacturing and the utilities (water & energy) sectors of the economy. The results are compiled and published according to NACE (the statistical classification of economic activities in the European Community).

Regarding the turnover variable, in order to provide better quality statistics from May 2005 onwards and for its backward series, the NSO has undertaken a slight modification to the total turnover weights. This may not have a bearing on total MIG groupings but may result in some changes to indices in a few selected NACE divisions.

Data Collection and Index Compilation

Data has been collected by means of a statistical sample survey. For each NACE division (for example NACE Division 14 for quarrying), a sample was selected. On a monthly basis the selected enterprises were requested to provide information, including turnover, employment and wages and salaries. On the basis of the information provided, indices have been calculated for each Division, showing the level of the specified variable (for example employment), relative to the average level throughout the base year 2000, in the case of the data presented here. Note that the data presented have not been seasonally adjusted.

Main Industrial Groupings

The objective of MIGS (Main Industrial Groupings) is to provide an activity breakdown of industry (Sections C to E inclusive of NACE) which is an intermediate level between the sections and sub-Sections. The need for an intermediate level comes from the fact that the three sections provide only a limited amount of detail. The 17 sub-sections belonging to these 3 sections are too numerous and also too difficult in size to make an aggregate analysis of the current development trends of industry.

There are 5 MIGS. These regroup all of the activities between Sections C to E and cover economic activities from quarrying, all manufacturing sectors and the water & energy sectors. These are:

- intermediate goods;
- capital goods;
- consumer durables;
- non-durable consumer goods;
- energy.

Status of the Data

The data contained in this release should be considered as current and thereby subject to revision. Each release may include revisions of the past monthly data in respect of a rolling two year period.

Objectives

The aim of the short-term statistics is to provide users with information on the business cycle.

Summary Definitions of Key Variables

Turnover: includes total sales and other income and is expressed net of VAT. Turnover is presented in current prices.

Wages & Salaries: covers wages and salaries including bonuses, weekly allowances (cost of living allowances), overtime and national social security contributions by the employee. It does not include employer's social security charges.

Employment: This covers all persons employed, regardless of whether they are part-time or full-time, and includes paid employees as well as working proprietors and unpaid family workers.
