

6 March 2014 | 1100 hrs | 044/2014

In October 2013, full-time employment increased by 3.2 per cent when compared to the corresponding month in 2012.

Gainfully Occupied Population: October 2013

Administrative data provided by the Employment and Training Corporation show that over a period of one year to October 2013, the labour supply increased by 3.4 per cent, reaching 164,792. This was mainly attributed to increases in the full-time gainfully occupied population of 4,859 persons and in registered unemployment of 581.

Registered Full-Time Employment

In the month under review, the Public Administration and Defence (NACE 84) and Administrative and Support Service Activities (NACE 77-82) increased by 31.0 and 13.4 per cent respectively when compared to the corresponding month in 2012. Within the public sector, a shift in employment was registered from Construction (NACE 41-43) to Public Administration and Defence (NACE 84). Increases in full-time employment within the private sector were recorded in Administrative and Support Service Activities (NACE 77-82; +14.5 per cent) and in Professional, Scientific and Technical Activities (NACE 69-75; +9.5 per cent). This sector also registered drops in employment in Construction activities (NACE 41-43, -2.1 per cent) when compared to 2012 levels.

The number of full-time self-employed rose by 243 when compared to October 2012. During the same period, the number of employees increased by 4,616. Male and female full-time employment went up by 1.6 per cent and 6.1 per cent respectively over 2012.

Registered Part-Time Employment

Registered part-time employment for the month under review went up by 4.6 per cent when compared to 2012 levels. The economic activities which experienced major increases were Wholesale and Retail; Repair of Motor Vehicles (NACE 45-47; +566 persons) and Administrative and Support Service Activities (NACE 77-82; +442 persons). On the other hand, part-time employment in Information and Communication (NACE 58-63) went down by 164 persons.

In October 2013, the number of part-timers who also held a full-time job amounted to 24,272 persons; an increase of 3.7 per cent when compared to the corresponding month in 2012. Compared to October 2012, the number of employed persons whose part-time job was their primary occupation totalled 33,510; up by of 5.3 per cent or 1,692 persons when compared to 2012 levels ■

Methodological Notes

1. In line with international methodology, annual data are being presented as an average for each respective year.
2. The statistics in this release are based on the administrative records of the Employment and Training Corporation (ETC).
3. The data in this release may be subject to revision. Monthly data are revised in the subsequent year.
4. Full/part-time status is defined by what the employer (employer or self-employed) declares in the Engagement Form which is required to be sent to the ETC upon the commencement of employment.
5. Apprentices, trainees and students are being included under their respective economic activity.

Definitions:

Part I of the unemployment register: Persons registering under Part I are either new job seekers who have left school, re-entrants into the labour market, and those who lost their job and who have been made redundant by their former employer.

Part II of the unemployment register: Persons registering under Part II are either workers who have been dismissed from work due to disciplinary action, left work of their own free will, refused work or training opportunities, or were struck off the register after an inspection by the Law Enforcement personnel.

Apprentices, trainees and students: Includes apprentices, trainees, Junior College and University students in the summer work-phase, undergraduate trainees, and trainees with fixed contracts.

Labour supply: The sum of the full-time jobs and the registered unemployed population. The number of part-time jobs is being excluded from the computation of this figure.

Employment in Malta/Gozo: Data on regional employment differ on the basis of economic sector. Accordingly, the data of the private sector depend on employee residence, whereas the data of the public sector depend on information provided by the employer regarding the location of its employees.

NACE: The statistical classification of economic activities in the European Community, abbreviated as NACE, is the nomenclature of economic activities in the European Union (EU).
