

Provisional estimates for 2013 indicate that Gozo's contribution to national Gross Domestic Product (GDP) at market prices accounted for 5.1 per cent, or €385.8 million.

Regional Gross Domestic Product: 2000-2013

Cut-off date:
18 December 2014

Gross Value Added (GVA) for the region of Malta increased by 4.5 per cent in 2013, while that for Gozo increased by 4.8 per cent (Table 1).

Gross Value Added Profile

The majority of the industries in Gozo registered increases when compared to the previous year. The main increases resulted in economic activities relating to education (P), information and communication (J), and electricity, gas, steam and airconditioning supply (D). Decreases were recorded in the industries comprising real estate (L), construction (F), financial and insurance (K) activities. An analysis of the contributions to Gross Value Added by industry and by region (NUTS III) is illustrated in Charts 1 and 2.

Chart 3 illustrates developments in GDP per capita at market prices for the regions of Malta and Gozo respectively. It also compares Gozo's GDP in relation to the total economy.

Population, Employment and Unemployment

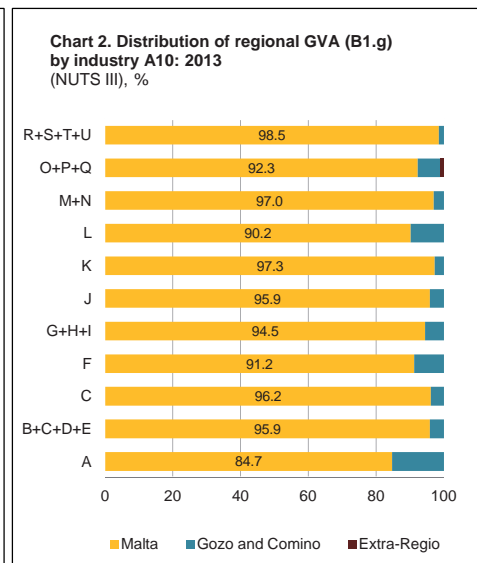

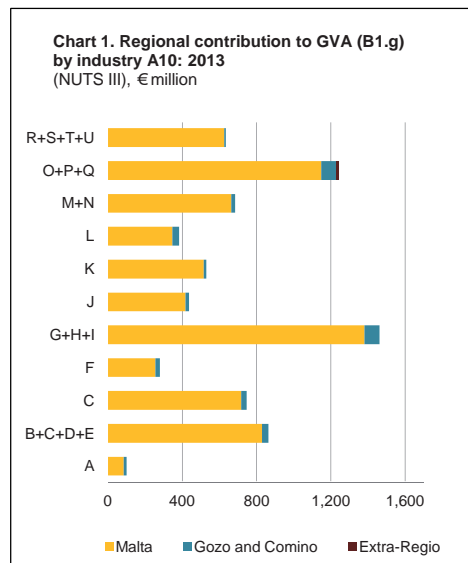

The total population in Malta increased by 1.0 per cent, whereas that in Gozo decreased marginally (Table 3).

Almost all industries in Gozo registered an increase in employment during 2013. Main increases resulted in public administration and defence, compulsory social security, education, human health and social work activities (O+P+Q); and wholesale and retail trade, repair of motor vehicles and motorcycles, transportation and storage, accommodation and food service activities (G+H+I). Drops in employment were mainly recorded in construction (F) activities (Table 4).

The number of unemployed persons (Parts I and II) increased in both Malta and Gozo, by 8.2 and 5.8 per cent respectively (Table 5) ■

* News Release 2012/2014
n/a not available

Methodological Notes:

1. All data in this News Release are in line with the European System of Accounts (ESA 2010) (ISBN 978-92-79-31242-7) and the manual on Regional Accounts Methods (ISBN 978-92-79-32357-7). The European System of National and Regional Accounts is an internationally compatible accounting framework for a systematic and detailed description of a total economy (whether this is a region, a country, or a group of countries), its components, and its relations with other total economies. Regional accounts are a regional specification of the corresponding accounts of the total economy. For more information reference should be made to the 'Regional Gross Value Added Inventory' which may be accessed at http://nso.gov.mt/en/nso/Sources_and_Methods/Unit_02/Regional_Statistics/Pages/Regional-Gross-Domestic-Product.aspx
2. The nomenclature of territorial units for statistics (NUTS) provides a single, uniform breakdown of the economic territory of the European Union. The NUTS is the territorial classification for the compilation of regional accounts. The economic territory of a country can be divided into regional territories and the extra-regio territory. For the purpose of regional accounts, Malta is divided as follows:

NUTS 0	NUTS I	NUTS II	NUTS III
MT			Malta
	MT0		Malta
		MT00	Malta
			MT001 Malta
			MT002 Gozo and Comino
	MTZ		Extra-Regio
		MTZZ	Extra-Regio
			MTZZZ Extra-Regio

The regional territory includes the region that is part of the geographic territory of a country and any free zones, including bonded warehouses and factories under customs control in the region. The extra-regio territory is made up of parts of the economic territory of a country that cannot be attached directly to a single region.

3. Data users must be aware that the industrial activities of General Government are spread over 19 different NACE categories (at A88 divisions) and include local councils and extra-budgetary units that are financially dependent on Government. NACE 84 is the largest category and, in terms of Gross Value Added, represented approximately 35.3 per cent of the General Government sector in 2013.
4. Total Employment (Table 4) includes full-time employees, employees with a part-time job as their primary occupation, and self-employed. Employment and Unemployment Data are based on administrative records of the Employment and Training Corporation (ETC).
5. Those registering under Part 1 of the unemployment register are new job seekers who have left school, re-entrants into the labour market, and job losers who have been made redundant by their former employers.

Those registering under Part 2 of the unemployment register are workers who have been dismissed from work due to disciplinary action, left work out of their own free will, refused work or training opportunities or were struck off the register after an inspection by the Law Enforcement personnel.
6. This news release is being published at A*10. Revisions in this news release date back to 2000 and mainly refer to the adoption of ESA 2010. The national estimates were revised in line with the National Accounts News Release 195/2014 for 2000 to 2010 and News Release 232/2014 for 2011 to 2013. Employment data provided by the ETC for the period 2011 to 2012 were also subject to revision.

European statistics comparable to data in this News Release are available at:

[EUROSTAT Website/Homepage/Data](http://ec.europa.eu/eurostat/tgm/table.do?tab=table&init=1&language=en&code=sdg_10_10_10)
