

In September 2014, registered full-time employment increased by 4.1 per cent when compared to the corresponding month in 2013, while registered part-time employment as a primary job rose by 8.9 per cent.

Gainfully Occupied Population: September 2014

Administrative data provided by the ETC show that over a period of one year, the labour supply (excluding part-timers, see methodological notes) increased by 3.3 per cent, reaching 171,765. This was attributed to an increase in the full-time gainfully occupied population (+6,446) and a drop in registered unemployment (-1,020) (Table 1).

Registered Full-Time Employment

In September 2014, Administrative and Support Service Activities (NACE 77-82) and Human Health and Social Work Activities (NACE 86-88) contributed mostly to the increase in employment, compared to the corresponding month in 2013. Registered full-time employment in the private sector went up by 3,975 persons, to 120,805. Public sector full-time employment increased by 2,471 persons to 44,361 (Table 2).

The number of persons registered as full-time self-employed rose by 428 when compared to September of the previous year, while the number of persons registered as employees increased by 6,018. Full-time employment for males and females went up by 2.9 per cent and 6.1 per cent respectively over 2013 (Table 2).

Registered Part-Time Employment

Registered part-time employment in September 2014 went up by 8.0 per cent when compared to a year earlier. The sectors that contributed most to the overall increase were Public Administration and Defence, Compulsory Social Security (NACE 84, +1,451) followed by Wholesale and Retail Trade, Repair of Motor Vehicles (NACE 45-47, +542) (Table 3).

The number of part-timers who also held a full-time job amounted to 24,641, up by 6.8 per cent when compared to the corresponding month in 2013. Employed persons whose part-time job was their primary occupation totalled 35,914, up by 8.9 per cent or 2,933 persons when compared to 2013 (Table 4) ■

Methodological Notes

1. Data in this release are based on administrative records of the Employment and Training Corporation (ETC).
2. The information contained in this release may be subject to revision. Monthly data are revised in the subsequent year.
3. Full-time and part-time status is defined by what the employer (employer or self-employed) declares in the Engagement Form which is required to be sent to the ETC upon the commencement of employment.
4. Apprentices are also included under their respective economic activity.
5. **Definitions:**
 - **Part 1 of the unemployment register:** Persons registering under Part 1 are either new job seekers who have left school, re-entrants into the labour market, or job losers who have been made redundant by their former employer.
 - **Part 2 of the unemployment register:** Persons registering under Part 2 are either workers who have been dismissed from work due to disciplinary action, left work out of their own free will, refused work or training opportunities or were struck off the register following an inspection by the Law Enforcement personnel.
 - **Apprentices:** Definition includes apprentices, trainees, Junior College and university students in the summer work-phase, undergraduate trainees, and trainees with fixed contracts.
 - **Labour Supply:** Full-time gainfully occupied population and the registered unemployed population.
 - **Malta/Gozo employment:** Data on regional employment differ on the basis of economic sector. Accordingly, private sector data depend on employee residence whereas public sector data depend on employees' location information supplied by the employer.
6. Gainfully occupied population data for January-July 2013 includes ex-MRRA workers under Construction (NACE 41-43). Following changes in ministerial responsibilities, these workers were shifted to a new ministry with a different economic activity, namely Public administration and defence; compulsory social security (NACE 84). As a result, there was a change in the way this group of employees was considered for statistical purposes in the course of 2013, resulting in a break in comparability in the time series within these areas of economic activity. For this reason, the average number of employees for NACE 41-43 and NACE 84 is not being computed.

The NSO is currently working with its main data providers in order to eliminate these inconsistencies in the time series and plans to publish revised and statistically adjusted time series data on registered employment in the coming months.
