Methodological Notes

1. The scope of this release is to take on board updates to administrative records resulting from late submissions to engagement and termination forms and the updating of employment records following the cleaning exercise undertaken by the ETC. The source for the data provided in this release, including the relevant classifications, are based on administrative records held at the Employment and Training Corporation (ETC).
2. The information contained in this release may be subject to revision. Monthly data are revised in the subsequent year.
3. Annual averages for the years 2010 to 2012 are worked out using quarter month data.
4. Annual averages for 2013 and 2014 are worked out using monthly data.
5. Full-time and part-time status is determined by the employer's declaration (or that made by a self-employed person) in the engagement form which is required to be sent to the ETC upon commencement of employment.
6. Apprentices are included under their respective economic activity.

7. Definitions:

- **Part 1 of the unemployment register:** Persons registering under Part 1 are either new job seekers who have left school, re-entrants into the labour market, and job losers who have been made redundant by their former employer.
 - **Part 2 of the unemployment register:** Persons registering under Part 2 are either workers who have been dismissed from work due to disciplinary action, left work out of their own free will, refused work or training opportunities or were struck off the register after an inspection by the Law Enforcement personnel.
 - **Apprentices, trainees and students:** Includes apprentices, trainees, Junior College and University students in the summer work-phase, undergraduate trainees, and trainees with fixed contracts.
 - **Labour Supply:** Full-time gainfully occupied population and the registered unemployed population.
 - **Malta/Gozo employment:** Data on regional employment differ on the basis of economic sector. Accordingly, the data of the private sector depend on employee residence, whereas the data of the public sector depend on employer information of location of its employees.
8. Gainfully occupied population data for January-July 2013 includes ex-MRRA workers under construction (NACE 41-43). Following changes in ministerial responsibilities, these workers were shifted to a new Ministry with a different economic activity, namely public administration and defence; compulsory social security (NACE 84). As a result, there was a change in the way this group of employees was considered for statistical purposes in the course of 2013, resulting in a break in comparability in the time series within these areas of economic activity.

In 2015 ETC adopted a revision in the economic activity classification of government entities, departments and ministries in collaboration with PAHRO. This implies that from January 2015 the economic activity of public sector entities and units is assigned according to the true activity of the unit not according to the economic activity of the Ministry under which each unit is attached.
 9. During the course of 2014 persons working with the public transport operator were shifted from the private sector to the public sector. Prior to 2014 and as from January 2015 those persons were considered to be part of the private sector.
 10. As from this release, public sector employees working in the economic activity: electricity, gas, steam and air conditioning supply (NACE 35) have been reclassified to employment activities (NACE 78). In view of this reclassification, there was a shift in employment figures from the economic activity aggregate 'electricity, gas, steam and air conditioning supply' to the 'administrative and support service activities' aggregate. In line with other releases published by this Office, this reclassification was taken on board from August 2014 onwards.
 11. Users are strongly advised to take into account the shifts referred to in notes 8, 9 and 10 when analysing longitudinal data.
 12. Additional tables are being provided in the Excel version of this release.
