

5 February 2016 | 1100 hrs | 021/2016

Preliminary figures show that Malta registered a trade deficit of €149.5 million in December 2015, compared to €232.4 million in the corresponding month of 2014.

## International Trade: December 2015

Cut-off date:  
1 February 2016

Provisional data for international trade show that the trade deficit in December stood at €149.5 million, down by €82.9 million when compared to the corresponding month in 2014. Both imports and exports decreased by €94.3 million and €11.4 million respectively (Table 1a). The decrease in the value of imports was primarily due to mineral fuels, lubricants and related materials (€82.0 million). Other decreases were recorded for machinery and transport equipment, miscellaneous manufactured articles, chemicals, and semi-manufactured goods. Regarding exports, mineral fuels, lubricants and related materials accounted for the main decrease (€39.3 million), with miscellaneous manufactured articles, and chemicals also registering decreases (Table 2).

### January-December 2015

Annual data for 2015 show that the trade deficit narrowed by €161.2 million, to €2,500.7 million when compared to 2014. Both imports and exports decreased by €385.9 million and €224.7 million respectively (Table 1a). Lower imports were mainly due to mineral fuels, lubricants and related materials, which decreased by €890.4 million. This was partly outweighed by an increase of €415.7 million in machinery and transport equipment. The decrease in the value of exports was mainly triggered by lower mineral fuels, lubricants and related materials (€252.5 million), machinery and transport equipment (€39.0 million), and chemicals (€13.9 million) (Table 2).

Malta's trade imports from the European Union reached €3,532.3 million, or 58.7 per cent of total imports. There was an increase of €278.5 million in imports from euro area countries when compared to the same period of 2014. Main increases and decreases in imports were registered from the Netherlands (€197.8 million) and the United States of America (€315.9 million) respectively. On the export side the main increase was directed to France (€33.6 million), whereas Libya (€88.6 million) registered the highest decrease (Table 3) ■

<sup>P</sup> Provisional

Note: The commodity breakdown is the Harmonised System (HS) Code at chapter level.

## Methodological Notes

1. Data in this release are based on:
  - a. the Intrastat Supplementary Declaration that traders in merchandise goods must submit in respect of Arrivals (Imports) and Dispatches (Exports) of goods from and to the Member States of the European Union (EU), in compliance with Legal Notice 131 of 2004; and
  - b. the Customs Declarations for imports from and exports to countries that are not Member States of the EU.
2. The Intrastat Supplementary Declaration for the collection of data on trade in goods between the Member States of the EU replaced the Customs Declaration as from 1 May 2004. The requirements of the Supplementary Declaration, which at EU level were introduced as from 1 January 1993, are similar in all the Member States of the EU.
3. As from May 2004, with the introduction of the Intrastat Supplementary Declaration as the source document for trade statistics, it was no longer possible to disaggregate total exports into domestic exports and re-exports.
4. The 'Balance of Trade' is the difference between a country's exports and imports. A country has a trade deficit if it imports more than it exports; the opposite scenario is a trade surplus.
5. This news release is based on data available as on the cut-off date printed on the front page of this release. These are provisional figures based on information provided by traders on a monthly basis. Regular revisions to monthly and annual trade data may be carried out for up to two (2) years after the reference period.
6. National concepts differ from the harmonised methodology used by Eurostat, leading to differences between figures in this release and those published by Eurostat. Malta uses the General Trade system for dissemination purposes, in line with UN recommendations. On the other hand, monthly data sent to Eurostat for both Intra-EU and Extra-EU are compiled according to the Special Trade methodology. A more detailed explanation of these two concepts can be found at <http://nso.gov.mt/metadata/reports.aspx?id=7>.
7. Individual countries' data not appearing in this release are available from the NSO upon request.
8.
  - i. Up to 31 December 2014, the euro area included Austria, Belgium, Cyprus, Estonia, Finland, France, Germany, Greece, Ireland, Italy, Latvia (from 2014), Luxembourg, the Netherlands, Portugal, Slovakia, Slovenia and Spain. From 1 January 2015, the euro area also includes Lithuania. Trade data for Lithuania is included with the euro area data as from reference month January 2015.
  - ii. The European Union includes Austria, Belgium, Bulgaria, Croatia (from July 2013), Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, the Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden and the United Kingdom.
  - iii. EFTA (European Free Trade Association) countries comprise Iceland, Liechtenstein, Norway and Switzerland.
9. Totals may not add up due to rounding.
