

POSITION OF **STATISTICAL OFFICER** FULL-TIME

• ROLE •

The National Statistics Office (NSO) of Malta is looking for aspiring and talented individuals to join their team in the position of Statistical Officer on a full-time indefinite basis. The incumbents will be assigned to horizontal or technical units according to their area of specialisation and the exigencies of the institution.

This position is an excellent career opportunity for prospective candidates with an academic background in Mathematics, Statistics and Operations Research, Engineering, Economics, Accountancy, Banking and Finance, and Information Technology.

Besides an excellent level of interpersonal and communication skills, successful candidates must have sound numerical and analytical skills. Coding and programming skills are considered an asset.

WORKING CONDITIONS

This position carries a starting annual salary of €34,353 for 2026 which goes up to €36,555 in 2027, as well as a Performance Bonus of up to 10% yearly, a Class Allowance of €1000 yearly (increasing to €1750 in 2027), a possible Qualification Allowance for those eligible plus an automatic Statistical career progression path. Renumeration excludes any overtime pay, which is reimbursed separately as need arises.

The NSO also thrives to offer:

- Work-Life Balance: Enjoy flexible working arrangements, hybrid working, reduced summer hours, and family-friendly measures;
- Basic Health Insurance (with upgrading options to Hospital and Dental covers);
- Beneficial Interest Rates for Home and personal Loans with APS Bank;
- Emotional Well-being Services – sessions with professionals at Richmond Foundation;
- Continuous Learning: One-on-one training, regular information security tuition, and access to tailored development programs.

REQUIREMENTS

Interested candidates must:

- Be in possession of a recognised certificate equivalent to the Malta Qualification Framework (MQF) level 6 or above in Mathematics, Statistics and Operations Research, Economics, Accountancy, Banking and Finance, Engineering or Information Technology.
- Demonstrate a good command of the English language, together with Maltese or any other official European language.
- Candidates who have not yet formally obtained the qualifications specified above will still be considered, provided that if successful, the candidates are offered the job once the full MQF Level 6 qualification (180 ECTS) is achieved and provided to the employer.

Prospective applicants should note the requirement to produce MQRIC recognition statements in respect of their qualifications from MQRIC, or other designated authorities, as per provisions applicable to this call for applications should this be required.

Prospective applicants are kindly requested to read the following [eligibility requirements](#).
